My lecture topic

My name

University of Iowa

January 1, 2025

My amazing course Biostatistics 1234 My name 1/3

Introduction

• Interesting point number 1

My amazing course Biostatistics 1234 My name 2 / 3

Introduction

- Interesting point number 1
- Interesting point number 2

My amazing course Biostatistics 1234 My name 2/3

Introduction

- Interesting point number 1
- Interesting point number 2
- Interesting point number 3

$$\mathbf{y} = \mathbf{X}\boldsymbol{\beta} + \boldsymbol{\varepsilon}$$

My amazing course Biostatistics 1234 My name 2 / 3

Here's some code and a plot

```
rnorm(3)
[1] -0.3309234  0.4501020  2.3618986
curve(sin, -pi, pi, bty = "n", las = 1)
          1.0
          0.5
      sin(x)
         0.0
         -0.5
         -1.0
                       -2
                                      Х
```
