Abstract

My abstract

1 Introduction

Text goes here.

2 Methods

$$\mathbf{y} = \mathbf{X}\boldsymbol{\beta} + \boldsymbol{\varepsilon}$$

```r
rnorm(3)
```

```
[1] -1.0492384  0.5613014 -0.7718292
```

```r
curve(sin, -pi, pi, bty = "n", las = 1)
```
