$$\mathbf{y} = \mathbf{X}\boldsymbol{\beta} + \boldsymbol{\epsilon}$$

$$\mathcal{I} = \boldsymbol{\mathcal{V}}^{-1} = \boldsymbol{\mathcal{J}} = \boldsymbol{\mathcal{V}}^{-1}$$

Here's some code and a plot

```
rmnorm(3)
```

```
[1] -0.18432416  0.58047025 -0.05492992
```

```
curve(sin, -pi, pi, bty = "n", las = 1)
```
